

QUOTE COMPARISON EXAMPLE

One uploaded quote. Two ways to compare.

Supplier A's uploaded quote stays visible for comparison. WonderPriceAI matches supported items to suitable offers in its supplier database. If its supplier is in the network, alternatives come from other suppliers; otherwise, the full network is searched.

SUPPORTED LINES	QUOTE MATERIALS	QUOTED DELIVERY	EXAMPLE PREFERENCES
3 materials	£1,210 ex VAT	£40	Available, within 30 miles

Example delivery postcode: WC2H 9JQ. The user can change availability and radius preferences. Supplier letters, prices, stock and distances are sample values.

01 Lowest price by matching item

Select the lowest eligible offer for each supported material. The material result may combine suppliers; the original quote remains alongside each line.

Quoted material / quantity	Supplier A quote	Lowest alternative	Selected supplier	Availability
Facing bricks 1,000 each	£620	£550	Supplier B	Available, 8 miles
Concrete blocks 200 each	£460	£390	Supplier C	Available, 16 miles
Mortar 10 bags	£130	£105	Supplier E	Available, 12 miles
Materials subtotal, ex VAT	£1,210	£1,045	3 suppliers	Within 30 miles

£165 lower in material cost than the original quote. Alternative delivery charges are unknown and excluded. Three suppliers may mean three deliveries, so this is not a delivered-cost saving.

The original quote includes £40 delivery. Its delivered total is not compared with alternative material-only totals. Product specifications, pack sizes, minimum orders and source terms must be checked.

QUOTE COMPARISON EXAMPLE

One supplier for the whole material list.

Each alternative below covers all three supported lines. Supplier A is excluded because it issued the uploaded quote. All four alternatives satisfy this example's availability and 30-mile preferences.

02 Lowest comparable total from one supplier

Eligible supplier	Facing bricks	Concrete blocks	Mortar	Material total	Availability / distance
Supplier B	£550	£425	£125	£1,100	All available, 8 miles
Supplier C - lowest	£565	£390	£130	£1,085	All available, 16 miles
Supplier D	£610	£420	£110	£1,140	All available, 22 miles
Supplier E	£590	£410	£105	£1,105	All available, 12 miles

Supplier C has the lowest complete material total: £1,085 ex VAT. This is £125 below Supplier A's quoted material subtotal of £1,210. Delivery for alternatives is unknown and excluded.

How the comparison works

Original quote: the uploaded supplier document provides the items, quantities and quoted prices. If its supplier is in the network, alternatives come from other suppliers; otherwise, the full network is searched.

Two independent choices: select the lowest matched price for each item, or the lowest complete material basket from one supplier. Availability and delivery postcode/radius preferences can be applied to either mode.

Incomplete baskets: a supplier with no suitable or available match for an item is flagged as incomplete. Its partial subtotal is never presented as the lowest complete order.

Basis and limitations

Prices in this document are illustrative, not live offers. Both comparison modes show material totals excluding VAT and alternative delivery charges. The input quote's £40 delivery is shown separately. No real supplier product links or source quote PDF are included in this sample.

Check exact product specifications, pack sizes, minimum orders, VAT treatment, stock, radius, delivery charges, exclusions and any account-specific quote terms before choosing.
